African Safety Services

Safety, Health and Environmental Policy

African Safety Services (Pty) Ltd (2003) is an Occupational health and safety as well as environmental service provider. Our purpose is to provide our customers / clients with sustainable health, safety and environmental guidance and in a manner that ensures the health and safety of their employees, neighbouring organizations and their visitors.

To achieve this we will:

Comply with all applicable legislation.

Optimize the delivery of our service according to customer requirements and use and protect scarce resources such as water, land and vegetation on a sustainable basis.

Consult and communicate with customers, suppliers, coalition and other interested and affected parties.

Monitor, review and continually improve our health, safety, environmental and quality performance.

Take preventative action to reduce health and safety risks, manage our environmental impacts, reduce waste and pollution and minimize non-conformance.

Encourage and expect our customers, visitors and contractors to comply with acceptable health, safety, environmental and quality standards.

Ensure that all employees, coalition members and contractors, whose work can have a significant impact on health, safety, environmental and quality, receive appropriate education and/or training.

African Safety Services

Products and Services available

Service	Description	Calculation	Price
Risk Management Audits	Risk profile can be done on the company to determine the:- Possible risk OHS act legal compliance COID compliance	Per day	
Occupational Health, Safety and Environmental system	This system was designed by ourselves and is a purely "legal compliance" system incorporating standards and registers which are customized for your specific needs. The system will be supplied at a normal fee that will cover all updates free of charge and include the maintenance and the use of the system for the duration of the service agreement. Should you wish to purchase this system only and do the implementation yourself, this can be arranged.	Right to use electronic system	Quote
OHS Implementation/ Consulting Service (OHSaES)	Should you feel that you do not have the manpower or expertise to implement the OHSaES system, we can assist you by entering into a service agreement or once off consultation whereby we will ensure that the system is implemented. Here the size of your factory /office would determine the time spent per month.	Service Agreement No service agreement Once off consultation	
Legal Compliance Audit	Risk profile can be done on the company to determine the: - V Possible Risk V OHS act legal compliance V COID compliance	Per day	

African Safety Services

Code of Conduct

We shall conduct our:-

RELATIONSHIPS – business and social, with highest integrity.

MORAL RESPONSIBILITY – for safety, health and environment regardless to race, creed, colour, ethnicity, gender or religion.

PRIVATE AFFAIRS – with such sound judgment that it will not detract from the dignity of our profession.

CUSTOMER // CLIENT RELATIONSHIPS – so as not to abuse our professional affiliations or offices to secure endeavors to those areas in which we have specific training, knowledge and competence whilst maintaining the highest degree of expertise.

PROMOTIONAL PRACTICES – we shall not participate in exaggerated or misleading statements or our qualifications, experience or standing and shall not present our work in manner which may in any way reflect unfavorable or bring discredit to our profession.
